## Waterproofing (Flood Test Document)

## Project Name:

Date of Flood Test:
Test Area:
Waterproofing System Used:
Photos Taken:
Test Duration:
Personnel Involved:

| Preparation: | Pass | Fail | Actions Taken |
| :--- | :--- | :--- | :--- |
| - Waterproofing System Installation | $\square$ | $\square$ |  |
| - Joints, Connections, and Penetrations Check | $\square$ | $\square$ |  |
| - Primer and Surface Preparation Check | $\square$ |  |  |

Test Setup and Containment

| - Water Barriers/Dams | $\square$ | $\square$ |
| :--- | :--- | :--- | :--- |
| - Drains/Outlets Sealed | $\square$ |  |
| Filling the Test Area: | $\square$ |  |
| - Gradual Water Filling | $\square$ | $\square$ |
| - Test Area Water Depth: | $\square$ | $\square$ |

## Monitoring:

| - Observation Period: | $\square$ |
| :--- | :--- |
| - Inspection of Test Area | $\square$ |

Identification of Leaks:

| - Location of Leaks | $\square$ | $\square$ |
| :--- | :--- | :--- |
| - Potential Causes | $\square$ | $\square$ |

## Addressing Issues:

## Final Approval:

| - Waterproofing Passed | $\square$ |  |
| :--- | :--- | :--- |
|  |  |  |
| - Approved By: |  | $\square$ |
|  |  |  |
| - Date of Approval: |  |  |

## Notes/Comments:

## Instructions:

1. Fill in the necessary details about the project, including the project name, date of the flood test, test area, and the type of waterproofing system used.
2. Specify the water level measurement tool and the duration of the flood test.
3. List the personnel involved in conducting the flood test.
4. Under "Preparation," provide a brief checklist of the steps taken to prepare the waterproofing system for the test.
5. In the "Test Setup and Containment" section, detail how the test area is set up and water containment measures are implemented.
6. Record the process of filling the test area with water and the desired water depth.
7. During the "Monitoring" phase, note the observation period and the inspection of the test area for any signs of leaks.
8. Under "Identification of Leaks," document the location of any leaks found during the test and the possible causes.
9. If any issues are identified, record the steps taken to address and resolve them in the "Addressing Issues" section.
10. Once the flood test is successfully completed, provide space for final approval details and signatures
11. Use the "Notes/Comments" section for any additional remarks or important information related to the flood test.

Note: Ensure the waterproofing meets the specified requirements for waterproofing requirements

Signatures: Applicator: $\qquad$ Date: $\qquad$

Supervisor/Inspector: $\qquad$ Date: $\qquad$

Please customise the document to suit your specific project requirements and include any additional information required for your records.
